

SEWER EXTENSION AGREEMENT

THIS AGREEMENT made and entered into this ____ day of _____, 20____, by and between Public Water Supply District No. 2 of St. Charles County, Missouri, 100 Water Drive, P.O. Box 967, O'Fallon, St. Charles County, Missouri 63366 ("District") and _____, ("Developer").

WHEREAS, District is a political corporation of the State of Missouri organized and existing under the provisions of Sections 247.010 et seq. R.S.Mo. 1994 and providing public water supply and sewage collection and treatment in portions of St. Charles and Warren Counties, Missouri; and

WHEREAS, Developer owns approximately ____ acres of land within the boundaries of District which Developer will develop as ____ lots for _____ purposes ("Development") the legal description of which is marked Exhibit "A", attached hereto and incorporated herein by reference; and

WHEREAS, District desires to serve Development and Developer desires to have District serve Development.

NOW, THEREFORE, in consideration of the mutual agreements, conditions and covenants herein contained, the parties hereto agree as follows:

1. DEVELOPMENT TREATMENT FACILITY, MAINS AND CONNECTION FEES.

1.1 Developer shall construct, at Developer's sole cost and expense, all sanitary sewage collection and treatment facilities including, but not limited to a sanitary sewage treatment system, sewer lines, sewer mains, manholes, lampholes and appurtenances ("Sewer System") necessary to serve the Development in accordance with plans and specifications approved by District's engineer.

Upon completion of construction of the Sewer System by Developer, either (a) when each phase is constructed if the Development is constructed in phases, or (b) when all construction is completed if the Development is not constructed in phases, Developer shall convey all of Developer's right, title and interest in and to the Sewer System excluding service laterals or lines to District by Bill of Sale free and clear of any and all liens, claims or encumbrances of whatever kind or nature.

1.2 All of the construction of the Sewer System shall be in accordance with the District's Rules and Regulations.

1.3 Developer shall pay to District all connection fees due District in accordance with District's Rules and Regulations as are now in force or as they may be hereafter amended.

2. SOLE SUPPLY.

The Developer shall not connect or permit to be connected the Sewer System constructed by Developer to serve the Development to any other provider of sanitary sewage treatment and collection services. District shall be the sole supplier of sanitary sewage treatment and collections services to the Development unless connection to another supplier is ordered by any Federal or State agency with the lawful authority to order such a connection or a court of competent jurisdiction. District shall have the right to contest such connection order and no such connection shall be made until all appeals of the connection order have been concluded. If such connection is ordered within five (5) years from the date of this Agreement then the Developer, at its sole cost and expense, shall construct the connection in accordance with plans and specifications approved by District's engineer.

No connections shall be made to or served by the Sewer System until all of the Sewer System is completed and accepted by District unless District consents in writing. Developer shall convey to District, or shall dedicate for District's use, in form acceptable to District's attorney, all easements and real property as District may require for the operation of the Sewer System.

Developer shall also provide District with as-built plans of the Sewer System upon completion of construction and acceptance of the Sewer System by District.

3. MAINTENANCE BOND.

The Developer shall not be relieved of his obligation to maintain the Sewer System until the same is accepted by the District in writing; provided however, that upon acceptance of the Sewer System by the District the Developer shall be required to execute a maintenance bond, post a letter of credit or deposit cash pursuant to an escrow agreement with the District to ensure that the Sewer System is installed properly and that such construction has been performed in a workmanlike manner. The maintenance bond, letter of credit or cash escrow agreement shall provide that:

a. If within one (1) year from the date of acceptance of the Sewer System by the District the Sewer System shall disclose poor workmanship in the execution of said work, or it shall appear that defective materials were utilized therein, or in the event the Developer or any party working on behalf of the Developer shall cause damage to the Sewer System or cause any condition by grading or otherwise that would impede proper maintenance of the Water System, then said maintenance bond, letter of credit or cash escrow agreement shall remain in full force and effect, otherwise to be void. The maintenance bond, letter of credit or cash escrow agreement as required for the first year shall be in the amount of twenty percent (20%) of the estimated cost of the Sewer System as approved by the District Engineer. The form and legality of the maintenance bond, letter of credit or cash escrow agreement shall be approved in a consistent manner by the District's Counsel prior to acceptance thereof.

And,

b. If after the first year but within three (3) years from the date of acceptance of the Sewer System by the District, the Developer or any party working on behalf of the Developer

shall cause damage to the Sewer System or cause any condition by grading or otherwise that would impede proper maintenance of the Sewer System, then said maintenance bond, letter of credit or cash escrow agreement shall remain in full force and effect, otherwise to be void. If there are no outstanding work items or payments due, disputes between the parties, or other matter which would cause the District to hold the 20% maintenance bond, letter of credit or cash escrow agreement, then the District will require that the amount of the maintenance bond, letter of credit or cash escrow agreement as required from the end of year one (1) to the end of year three (3) shall be decreased to an amount equal to five percent (5%) of the estimated cost of the Sewer System but not less than \$5,000 and as approved by the District Engineer. The form and legality of the maintenance bond, letter of credit or cash escrow agreement shall be approved in a consistent manner by the District's Counsel prior to acceptance thereof.

And,

c. In the event that a developer who has posted a maintenance bond, letter of credit or cash escrow agreement with the District transfers title of the Sewer System prior to full release of the maintenance bond, letter of credit or cash escrow agreement, the District will accept a replacement maintenance bond, letter of credit or cash escrow agreement from the successor developer in the form, and amount, allowed by the District at the time of property transfer. Upon receipt of the replacement maintenance bond, letter of credit or cash escrow agreement, the District shall release the original maintenance bond, letter of credit or cash escrow agreement in full and release the prior developer from all further obligations with respect to the Sewer System improvements.

4. AUTHORITY.

The parties hereto covenant and warrant to each other that each has full right, power and authority to execute this Agreement and have the power to grant all rights and perform all duties and

obligations hereunder.

5. ASSIGNMENT.

This Agreement shall not be assignable without the express written consent of the parties hereto.

6. SUCCESSORS AND ASSIGNS.

This Agreement shall be binding upon and inure to the benefit of the parties, their respective successors, personal representatives, assigns, and all owners of land within the Development.

7. MISCELLANEOUS.

a. Developer hereby acknowledges that it is aware that money damages may not be a sufficient remedy for a violation or threatened violation of the terms of this Agreement and that District therefore shall be entitled to specific performance or other equitable relief for any such violation or threatened violation.

b. The prevailing party in any litigation arising hereunder shall be entitled to its reasonable attorney's fees and court costs, including appeals, if any.

c. This Agreement constitutes the entire Agreement and understanding of the parties, and supersedes all offers, negotiations and other agreements. There are no representations or understandings of any kind not set forth herein. Any amendments to this Agreement must be in writing and executed by both parties.

d. This Agreement shall be construed in accordance with the laws of the State of Missouri.

e. If any provision of this Agreement is found to be void or invalid, such invalidity shall not affect the remaining terms of this Agreement which shall continue in full force and effect.

f. Notices required to be given shall be given to the following address:
